

New England Seminar in Forensic Sciences

July 23 – 27, 2023

Colby College

Waterville, Maine

Beautiful Setting, Collegial Environment and Great Sessions!

For nearly 50 years, forensic scientists, physicians and other professionals throughout the United States have returned to the beautiful campus of Colby College in Waterville, Maine to attend the New England Seminar in Forensic Sciences. Led by distinguished instructors from across the country, the program provides participants with an in-depth understanding of current standard practices in the medical examiner/coroner and death investigation fields. The seminar is an ideal opportunity for participants to reconnect, reflect and rejuvenate while gaining important insights into the field of forensics. Make plans now to join us for this outstanding program and to spend time exploring the beautiful state of Maine.

**The New England Seminar in Forensic Sciences has regularly
been accredited to offer 25.5 AMA PRA 1 Credits™.**

Testimonials

- ~ An excellent and fun conference!*
- ~ Excellent sessions, better every year!*
- ~ Excellent all around! Informative, entertaining and engaging!*
- ~ As good as the talks were, they are only part of what made this such a great meeting. The informal sessions and the interaction in the lobby and the dining hall were also spectacular. Unforgettable. Maybe the best medical meeting I have ever attended.*
